

SolarInvert Energy Solutions

Villa energy storage battery container

Overview

What is a villagrid energy storage system?

The VillaGrid energy storage system is complementary to home solar panels which charge the battery. As homeowners face rising electricity rates, unplanned power outages and Public Safety Power Shutoffs, the VillaGrid can help them reduce their electric bills and better endure blackouts.

How does a villagrid battery storage system work?

Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use. The VillaGrid allows you to avoid peak hour charges, reduces your dependence on the energy grid and keeps you running in the event of an outage.

What is Villara's new home battery?

Villara Energy Systems launched its state-of-the-art home battery, the VillaGrid. This revolutionary energy storage system (ESS) is the first of its kind to harness lithium titanate chemistry.

Why should you choose a villagrid battery?

Lower your energy costs and reduce your dependence on the power grid with the award-winning energy storage system that provides more power, more safety, and the industry's longest warranty. VillaGrid is the longest lasting home battery with the highest power while also being the safest and most efficient battery on the market.

How does a villagrid Solar System work?

Your PV (Photovoltaic solar system) collects energy from the sun and stores it in your VillaGrid Storage System. Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use.

Where is Villara energy systems located?

Villara Energy Systems, located near Sacramento, California, is part of the Villara family of companies (established in 1947), which has been installing home energy equipment (including solar, batteries, and generators) for about 20 years. In 2021, it launched the VillaGrid, the only 20-year home battery currently available on the market.
