

## SolarInvert Energy Solutions

# West Asia outdoor wind power base station manufacturer

## Overview

---

How big is Asia's Offshore wind capacity?

According to Eninrac's Asia Wind Project Intelligence Tracker, Asia is expecting offshore wind capacity of more than 300 GW. Rapidly expanding government commitments and technological progress are contributing to the positive outlook in established markets and countries new to offshore wind.

What is the largest offshore wind project in Vietnam?

This is one of the largest offshore wind projects in Vietnam, being developed by Mainstream Renewable Power in collaboration with local partners. Located off the coast of Soc Trang province, the project has a planned capacity of up to 1,400 MW. It will be developed in multiple phases, with the first phase expected to provide 400 MW of capacity.

How will offshore wind energy development impact Asia?

Offshore wind energy developments are embraced by most regions across the Asia. With nearly 400+ fresh projects announced/proposed to be commissioned by FY'2030-31 across the Asia, the offshore wind energy installations might see a capacity addition of over 300 GW\* ,which shows a massive increase in current capacity.
