# What are the wind solar and energy storage power stations in Zimbabwe

## Overview

---

How many solar power projects are there in Zimbabwe?

As of 31 July 2019, the Zimbabwe Energy Regulatory Authority (ZERA) had issued more than 77 power generation licences with 42 being solar power projects. A number of IPPs are already selling electricity to the Zimbabwe Electricity Transmission and Distribution Company (ZETDC) and feeding into the national grid.

What is the largest power station in Zimbabwe?

Situated in the North Western part of Zimbabwe, Hwange Power Station is the largest coal-fired power station with 920MW installed capacity which comprises of 4x120MW and 2x220 MW units. In 1955, it was decided to dam the Zambezi River at the Kariba Gorge to supply power to Zimbabwe and Zambia.

Where is the largest coal-fired power station in Zimbabwe?

Hwange Power Station, located in the North Western part of Zimbabwe, is the largest coal-fired power station in the country. In 1955, it was decided to dam the Zambezi River at the Kariba Gorge to build this Power station. It is located in the Workington area of the capital city along Coventry Road.
