

# What is CSC in pack battery

## Overview

---

### What is a STW CSC (cell sensor circuit)?

Talk to one of our experts. The STW.csc (Cell Sensor Circuit) monitors the individual cells of the battery through the measurement of voltage, temperature and SOC. Every STW.csc is equipped with a passive discharge path in order to balance out the battery cell charges. The cell sensor circuit communicates with the superordinate BMS.

### What is a cell module controller & CSC?

Proactively addresses cell imbalances, overcharging, and overheating, safeguarding the battery system and extending its lifespan. Easily integrates with both automotive and stationary battery chemistries, featuring a comprehensive cell module controller and cell supervision circuit (CSC) for seamless operation.

### What is a battery management unit (BMU) & cell supervisory circuit (CSC)?

When the number of battery cells is small, the Battery Management Unit (BMU) and Cell Supervisory Circuit (CSC) are placed on the same PCB. But when the number of battery cells that need to be managed increases, the BMU and CSC, need to be placed on different PCBs.

### What is HVX CSC?

The HVX.csc (Cell Sensor Circuit) monitors the individual cells of the battery through the measurement of voltage, temperature and SOC. Every HVX.csc is equipped with a passive discharge path in order to balance out the battery cell charges. The cell sensor circuit communicates with the superordinate BMS.

### What does CSC stand for?

Vitesco Technologies - High Voltage Cell Supervising Circuit (CSC) The Vitesco Technologies Group became part of the Schaeffler Group as of October 1, 2024, due to the merger of Vitesco Technologies Group AG into Schaeffler AG.

## What is HVX csc4 cell sensor?

The HVX.csc4 cell sensor circuit therefore provides high-precision voltage measurement paths, an over/undervoltage monitoring system and a cell temperature monitoring device. A forced shutdown is carried out in case of safety limit violations. Passive balancing with 160 mA is used as the standard for the balance of charges between the cells.
