What is the Lily Energy Storage Project

Overview

What is the Lily solar + storage project?

The Lily solar + storage project, located east of Dallas, Texas, is a hybrid project that integrates a renewable energy plant with utility-scale battery storage. This is Enel Green Power's first such project in North America, with a capacity of 181 MW.

Will Enel Green Power build Lily Solar & Storage Project?

Enel Green Power is building the Lily solar + storage project.

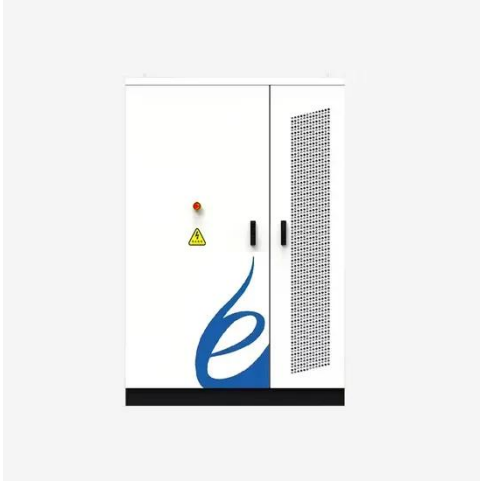

Who developed the Lily solar project?

The Lily solar project was initiated and developed by Red River Renewable Energy, LLC, a joint venture among affiliates of Sun Chase Power and MAP Energy, LLC.

What is Enel Green Power's growth plan?

Enel Green Power North America is embarking on an accelerated growth plan involving the addition of 6.5 GW of new renewable capacity and 1.4 GW of energy storage over the next three years.
