Where can I buy lithium battery packs in Argentina

Overview

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

How much lithium will Argentina produce in 2040?

If Argentina manages to bring all of projects to production , the country would produce up to 1.5 million metric tons of lithium carbonate equivalent per year, exporting around US\$30 billion. This scenario could be achieved by 2040, according to Dreizzen's estimates.

How much lithium does a car use?

Regarding the use of this key resource for the energy transition, the report details that lithium constitutes between 7% and 10% of each battery. On average, a vehicle uses 55 kilograms of lithium carbonate for its battery cathode, equivalent to what 17,000 cell phones require. How is lithium produced in Argentina?

.

Where are lithium companies based?

Furthermore, there are also national oil companies that have ventured into local lithium in recent years (Pluspetrol, Integra, PAE, Tecpetrol). These companies have headquarters in several countries, including Australia, Canada, South Korea, China, the United States, France, among others.

Will Livent buy unilib lithium?

The purchase is part of an agreement signed at the beginning of the year by

Catamarca Province, where the lithium is produced, and state-owned energy research company Y-TEC, in which Livent would supply lithium to UNILIB, the region's first cells and batteries development plant, according to the secretariat.

Will global demand for lithium continue to grow?

Buenos Aires — Global demand for lithium will continue to grow in the coming years, propelled predominantly by a rising production of electric vehicles.
