Where to order battery cabinets in New Zealand

Overview

What is a lithium-ion battery safety mini cabinet?

This cabinet is designed to ensure the safety and security of lithium-ion batteries while maintaining a cool and dry storage space. The Hazero Lithium-ion Battery Safety Mini Cabinet provides a safe and controlled environment for storing Lithium-ion batteries commonly used in various electronic devices and equipment.

What is a lithium ion battery cabinet?

For larger businesses, this Lithium-ion battery cabinet makes the most of the clever double-wall, sheet steel design, which provides a thermal air defence to slow the advance of any battery fire. Extra space inside gives more storage options for larger batteries (think scooters, e-bikes etc) as well as the charging equ.

What is hazero lithium-ion battery safety mini cabinet?

The Hazero Lithium-ion Battery Safety Mini Cabinet provides a safe and controlled environment for storing Lithium-ion batteries commonly used in various electronic devices and equipment. It is equipped with a lockable door, adjustable shelf and base, easy-to-clean sump, and adjustable feet for stability.

Where can I store lithium-ion batteries?

Store lithium-ion batteries safely with our fire-resistant, AS/NZS 5139-compliant cabinets – perfect for NZ worksites, warehouses & workshops.

Why should you choose a lithium-ion battery cabinet?

Whether from impact, overcharging, or internal fault, even small battery packs can pose a significant hazard — especially when stored in bulk. Our Lithium-ion Battery Cabinets are designed to minimise this risk through controlled, ventilated and secure containment.

How do I store a damaged battery?

Store damaged or swollen batteries in dedicated trays or flameproof bags inside the cabinet. Ground the unit using the static earth lug if required by site conditions. Include cabinets in your site risk assessment and emergency response plan. Available now from our NZ warehouse.
