

## SolarInvert Energy Solutions

# Which energy storage power supply is best in Somalia

## Overview

---

What is the energy sector like in Somalia?

Somalia's energy sector is considered promising for growth and investment. Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered systems through off-grid networks.

Who generates electricity in Somalia?

Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered systems through off-grid networks. Private Somali companies generate approximately 128MW; most companies generate and distribute electricity independently.

How much does electricity cost in Somalia?

Regarding costs per kilowatt-hour of electricity, Somalia has one of the highest unit prices in Africa. Somalia has higher tariffs than neighboring countries Kenya and Ethiopia, ranging from 50-125 cents/kWh compared to 0.15 cents/kWh in Kenya and 0.6 cents/kWh in Ethiopia. Somalia's energy sector is considered promising for growth and investment.

What is the power capacity of Somalia?

Somalia's capacity to generate and transmit power is largely weak and ineffective. As of 2020, the total estimated installed capacity in the major load centers of the country was about 138 MW which is inadequate to serve current and future demand.

Can solar power help businesses in Somalia?

According to the World Bank, through the Somalia Business Catalytic Fund, solar company Solargen was able to begin an initiative to provide affordable solar power access to vendors, businesses and other entities in the town of

Warsheikh and create more than 2,200 jobs through these businesses.

Which companies provide off-grid solar energy solutions in Somalia?

In addition, several other companies exist that provide off-grid solar energy solutions, including Blue Sky, Solargen, Delta, and others. Financing represents the biggest obstacle to Somalia realizing its potential as a hub for renewable energy. International development partners are providing support in the solar energy sector.
