# **Which lithium battery manufacturer is cheaper in Serbia**

## Overview

---

Where are LFP batteries made in Serbia?

Serbian battery developer ElevenEs is finalising a project for the construction of a mega factory that will produce Lithium Iron Phosphate (LFP) batteries in the country's northern city of Subotica, CEO Nemanja Mikac told SeeNews.

Could Serbia be a technological leader in LFP battery production?

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass-produce this type of battery. The signed Memorandum with the European Union envisages a serious focus on the ecosystem of electric vehicles and battery production.

What is the first lithium phosphate battery factory in Europe?

It is the first lithium iron phosphate (LFP) battery cell factory in Europe, it added. In Serbia's northernmost city of Subotica, a project is underway for a battery gigafactory with an annual capacity of 8 GWh, set for launch in 2026, while 40 GWh is planned to be added by end-2027.

How long will lithium-ion batteries be used?

Lithium-ion batteries will be used for at least another 10, and most likely at least another 20 years. You are participating in the Look UP – Green Transition conference, where you will discuss the development of the value chain in Serbia with international and domestic experts.
