# Which manufacturers of 5G base station distribution boxes are there in Costa Rica

## Overview

---

What does 5G Sa Mean for Costa Rica & Central America?

The deployment of the first 5G Standalone (5G SA) network in Costa Rica and Central America marks a transformative milestone, utilizing a fully 5G-native infrastructure without relying on 4G elements.

Who is deploying 5G in Costa Rica?

Liberty and Ericsson have signed a strategic contract to deploy the first 5G Standalone (5G SA) mobile service in Costa Rica, marking a milestone in the digitalization of the country and the Central American region.

Who are 5G base stations suppliers?

Suppliers of 5G base stations were benefited from the rapid development of 5G technology. Huawei, Ericsson, Nokia, ZTE, and Samsung are among the world's leading suppliers. In 2024, these five vendors control almost 96.12 % of the global market. China has installed around 12 times as many 5G base stations as the United States.

Is 5G coming to Central America?

Secure your free spot! Standalone 5G is coming to Central America with the help of rival Nordic cellular vendors. Ericsson just signed a deal with operator Liberty to deploy a pure 5G standalone core in Costa Rica, which the Swedish vendor claims as a first for Central America — although that's debatable.

Will there be a 5G SA network in 2025?

“We expect about a dozen more 5G SA networks to launch in 2025, including AT&T and Verizon,” Dell’Oro research director Dave Bolan told Fierce in January this year. While Ericsson claims that the Liberty deal is the first in Central America, Dell’Oro lists rival Costa Rican operator RACSA as a 2024 launch.

What are the top 5G manufacturers?

Leading vendors are offering innovative products to enhance network speed, coverage, and efficiency. Explore the top manufacturers shaping the future of 5G, including Altistar, Cisco Systems, Datang Telecom/Fiberhome, Ericsson, Huawei, Nokia, Qualcomm, Samsung, and ZTE. What is 5G NR?
