

## SolarInvert Energy Solutions

# Which smart battery cabinet manufacturers are there in Hungary

## Overview

---

Who makes EV batteries in Hungary?

The only exception is BYD, which operates (among others) a bus assembly plant in Hungary and uses its own batteries. In below, we provide a slight overview about the EV battery producer companies which already operate manufacturing plants in Hungary or announced to do so in the near future.

Why are EV traction batteries made in Hungary?

Over the last years, many of the leader EV traction battery manufacturers and their suppliers chose Hungary as the location of their newly established manufacturing plants. This is in line with the goal of the Hungarian government to become one of the main battery producer countries not only in Europe, but also at global level.

Should Hungary invest in EV battery plants?

Within the European Union, Hungary puts a particularly high stake on EV battery plants, in the hope that it will find itself among the leading countries of an emerging industry within a few years. Commitment to green mobility is not the only motivation for attracting large battery manufacturers to the small Central European country.

How many GWh a year does a battery produce in Hungary?

Indeed, by November 2023, battery production capacity in Hungary reportedly already reached 87 GWh/year, not including the newest SK Innovation plant, which is expected to begin production soon and to provide an additional output of 30 GWh/year alone when operating on full throttle.

Is a new BMW battery factory coming to Hungary?

According to the rumours, this facility would produce 46120-type cylindrical cells, to be used exclusively in BMW cars – more precisely, the planned new manufacturing unit is expected to supply the also recently-announced BMW

battery module assembly plant in Debrecen, Hungary.

Where are smart thermal batteries installed?

The company has more than 50 smart thermal batteries installed in Hungary, France, Portugal and Italy. In 2023, we launched two projects in Oman and the United Arab Emirates and signed contracts with two distributors in these countries. EIT Innoenergy, V3 Capital Partners and a private individual are the investors in the company.
