Yaounde 72v 60a battery cabinet

Overview

What is the bp72v60art2u extended battery module?

The BP72V60ART2U Extended Battery Module from CyberPower will extend the battery life of select models of their Smart App Online UPS systems during power outages. This battery module features a hot-swappable and user-replaceable battery pack consisting of twelve 12V/9Ah sealed lead-acid cells with a typical recharge time of 4 hours.

How long does a bp72v60art2u take to charge?

The BP72V60ART2U typically has a UPS charging time of 4 hours (0-90%), regardless of whether one or ten EBMS are installed, and comes with a three-year warranty. Expands runtime and quickly restores full backup power with Fast Charge Technology. Can be replaced without powering down vital equipment.

How many ebMS can a bp72v60art2u have?

Up to ten EBMs can be added to the UPS, and the module's DC plug-and-play power connectors allow for daisy-chaining additional EBMs to a UPS system. The BP72V60ART2U typically has a UPS charging time of 4 hours (0-90%), regardless of whether one or ten EBMS are installed, and comes with a three-year warranty.
