

SolarInvert Energy Solutions

Zambia household off-grid photovoltaic energy storage

Overview

Will Zambia invest in off-grid solar energy?

In collaboration with the World Bank, the Common Market for Eastern and Southern Africa (COMESA), the Africa Minigrid Development Association (AMDA), and other partners, the Government of Zambia is redoubling its efforts to invest in off-grid solar energy throughout the country to connect all Zambians.

What is the Zambia off-grid electricity portal?

The Zambia Off-Grid Electricity Portal was developed in order to facilitate off-grid electrification project developers by providing a one-stop information resource for matters of licensing as well as other aspects pertaining to such an investment.

Does Zambia need a new energy source?

LUSAKA, April 1, 2025 – Access to electricity in Zambia has risen from 30% in 2017 to currently nearly 50%. Whilst half of the population is connected, the remaining half will require new energy solutions. Zambia currently relies on hydropower for 80% its electricity generation, but recent droughts have shown the limitations of this energy source.

Zambia household off-grid photovoltaic energy storage

Home

This Portal provides useful information to developers and investors aiming to engage in off-grid electricity services in Zambia, including in mini-grids and solar home systems.
