# **Zimbabwe mobile power station power generation**

## Overview

---

Who owns Zimbabwe Power Station?

It is owned and operated by the national electricity company Zimbabwe Electricity Supply Authority. It was built in two stages and consists of 4 units of 120 MW each, 2 units of 220 MW each and 2 units of 300 MW each. Engineering Consultants, Merz & McLellan, were employed for the design and supervision of the construction of the power station.

How many power plants does ZPC run in Zimbabwe?

ZPC is solely mandated to supply electricity to the nation and operates the five power stations in Zimbabwe. Their mandate also extends to construction owning and maintaining power generation stations. ZPC runs four thermal power plants (Hwange, Bulawayo, Munyati and Harare) and one hydropower plant at Kariba South. (MEPD).

Where does Zimbabwe source its power from?

Power in Zimbabwe comes from local generation and imports. Domestic generation comes from Kariba Hydropower, Hwange coal-fired power Station, and three small thermal power plants. Local sources also include supplementary power from Mozambique, Democratic Republic of Congo (DRC), and Zambia.

What is the largest power station in Zimbabwe?

Situated in the North Western part of Zimbabwe, Hwange Power Station is the largest coal-fired power station with 920MW installed capacity which comprises of 4x120MW and 2x220 MW units. In 1955, it was decided to dam the Zambezi River at the Kariba Gorge to supply power to Zimbabwe and Zambia.

What is the biggest power plant in Zimbabwe?

The Hwange Thermal Power Station is the biggest power plant in Zimbabwe

with an installed capacity of 1520 MW. It is owned and operated by the national electricity company Zimbabwe Electricity Supply Authority. It was built in two stages and consists of 4 units of 120 MW each, 2 units of 220 MW each and 2 units of 300 MW each.

What are the major power projects in Zimbabwe?

The major power projects in Zimbabwe include the 920MW Hwange coal-fired power station (being expanded to 1,520MW) and the planned Batoka Gorge hydroelectric power project (with Zimbabwe's share of 1.2GW generating capacity).
